With laser performance this affordable, why settle for anything less? Lexmark's E232 mono laser printer combines professional quality with a rapid print speed of up to 22 pages per minute and a time to first page of less than 8.5 seconds. In addition to its attractive price tag, the Lexmark E232 also helps you save significantly on running costs. Its ultra-clean toner cartridges are replaced easily, without throwing away the photoconductor unit - so you replace only what you use, and nothing else!

### An easy life for you

The Lexmark E232 is designed to make your life easier. It comes with both a Parallel and USB port as standard, as well as enhanced installation software so you can easily connect it to your PC or Mac in a flash. The Lexmark E232t is equipped with the optional second drawer as standard into which you can load 550 sheets of A4 paper for longer-lasting capacity - or load it with different media, including labels and transparencies!

### Your reliable desktop partner

With Lexmark's proven AccuFeed system, you always benefit from smooth, reliable paper feeding from any of the input drawers. The Lexmark E232's small but sturdy design makes it the perfect solution for space-sensitive workplaces. Its 10,000 page monthly duty cycle lets you keep up with even the busiest workflows - reliability you can count on!

## PRINT-MOVE-MANAGE services

Supported by Lexmark award winning technology, innovative business applications and strong strategic service offerings, Lexmark's highly skilled, specialised account team can assist your organisation to print smarter, move critical information faster and manage your output related costs more efficiently. This value proposition, Print-Move-Manage, translates into a set of industry-specific solutions and expertise allowing you to improve, maintain and manage your document and printing infrastructure.

**PRINT:** A full range of advanced printing solutions based on industry leading technology and associated product services that provide leading edge functions at a very competitive cost. These include printers, multifunction devices as well as network and application-specific hardware and software solutions

**MOVE:** Consulting and implementation services designed to increase productivity while reducing the costs related to your paper-intensive processes through device consolidation, distributed document capture, distributed printing, electronic form integration and paper document workflow automation

**MANAGE:** A range of services offerings designed for today's business. Starting from the traditional leasing of equipment through per page based billing up to full contract management and outsourcing of your output device fleets. These offers are designed to deliver you the most cost effective solution for output and document management.
